

# TSA Secure Flight

Your safety is our priority

Airlines are now collecting additional passenger information as the Transportation Security Administration (TSA) implements **Secure Flight**, a program developed to allow for uniform watch list matching by TSA to identify known and suspected terrorists.

## How will Secure Flight affect me?

Passengers must provide the following information to the airlines in order to allow TSA to conduct watch list matching:

- Full name\*
- Date of birth
- Gender
- Redress Number (if available)\*\*

By providing this information in advance, most passengers will not experience any differences from the way they traveled before.

## What are the benefits of Secure Flight?

- Unified process enhances security
- Fewer misidentified passengers
- More efficient redress process\*\*

\* As it appears on passenger's government-issued ID.

\*\* Those who encounter misidentification are invited to apply for Redress at [www.dhs.gov/trip](http://www.dhs.gov/trip) to help prevent watch list matching misidentifications in the future.
